Leading schools for smart and efficient management The app every school needs

Kindix is a top-of-the-line School management system, that helps to manage day-to-day school activities effectively. using one amicable and simple system.

Kindix is the formation of creative technology and deep educational understanding. it was developed out of a wide pedagogical system perception and presents a plethora of advanced management tools for schools.

Everyone Is Connected

Why Choose Kindix?

Smart. Simple. Tailormade

Smart

We use AI methods to present new pedagogical insights to the management, making it extremely easy to understand where specific students or classes are heading

Simple

In order to Improve technological literacy and encourage regular use of the system and increase the involvement of the teaching staff in the management process at the school, the system must be very easy and intuitive to use, and that's how we built it.

Tailormade

The system can be adapted easily to any school configuration and need

Around-the-clock Support

Support is available around-the-clock by our expert and experienced agents ready to assist you in any way they can.
